

## 5 wire Sturdiness Electric Bolt lock with narrow panel

|                     |   |
|---------------------|---|
| Fail Safe           | Lock when energized                           |
| Face Plate          | 192Lx25WX37H(mm)                              |
| Strike              | 100Lx25Wx3H(mm)                               |
| Bolt                | 17mmDIA, stainless steel 13mm throw           |
| Voltage             | DC12V(DC24V)                                  |
| Start Current       | 900mA   |
| Standby Current     | 120mA   |
| Solid Bolt          | polishing housing, 1000Kg Holding Force       |
| Suitable For        | Wooden Door, Glass Door, Metal Door, PVC Door |
| Signal Output       | Door Status Output, NO/NC/COM                 |
| Surface Temp        | Low Temperature                               |
| Induction Distance  | 8mm   |
| Operating temp      | -10~+55°C(14-131F)                            |
| Operating Humidity  | 0~90%(non-condensing)                         |
| Special Designed    | Tested to 500000 operations                   |
| Face place material | Stainless Steel                               |
| Weight              | 0.676kg                                       |
| Standard Packing    | 24pcs.  |
