

## Electric lock

1.Suitable for small cabinet

2.Install with no noise

3.Small size, simple structure, being light,lower power-consumption

Working voltage	12VDC
Working current	0.35A
Output power	10W
Unlock time	1 second, Power on < 10 seconds
Working Mode	Power on to open
Length Extension of Lockpin	6MM
Specification	60Lx26Wx27Hmm
Surface Temp	$\leq +20^{\circ}\text{C}$
Operating Temp	$-10\sim +55^{\circ}\text{C}(14\text{-}131\text{F})$
Suitable Humidity	0~90%(non-comdensing)
Weight	0.15kg
