

**Wired Audio Door Phone System Outdoor Unit Widely Used for Building Apartment  
Model# PY-DPEZ-K**

**Technical Parameters:**

1. Unlock via Password or ID Card
2. Self-check function, will be indicate if fault on the line
3. Voltage: DC12V  $\pm$  10%
4. Audio Distortion<5%, Audio To Noise Ration $\square$ =50dB
5. Working Current: static state $\square$  $\leq$ 160mA  
dynamic state $\square$  $\leq$ 350mA
6. Working temperature $\square$ -40  $^{\circ}$ C -+50 $^{\circ}$ C

**Note: Usually work with indoor unit PY-DP20J3**
